

# Singapore - a vibrant, diverse, melting pot of cultures

## Discover Singapore

Singapore is constantly evolving, reinventing, and reimagining itself. It has evolved from a colony to a city-state with its own unique identity, from architectural wonders, lush parks, proud heritage, world-class attractions and amazing food. There's something for everyone in Singapore.

Step into the world of movies and explore Universal Studios, an internationally-acclaimed theme park located on the sunny resort island of Sentosa.

With rare flowers, vertical gardens and intriguing sculptures, Gardens by the Bay is a stunning park consisting of three waterfront gardens, the world's largest glass greenhouse and a 35-metre-tall indoor waterfall.

One of the most satisfying - and surely the most famous - of all crab dishes, Singapore's chilli crab is designed for hands-on, sleeves-rolled-up feasting.

Hark back to a golden age of elegant refinement and gracious living at Raffles Hotel Singapore, home to the iconic Singapore Sling.
